Our summer tennis camp is structured to help players improve at all skill levels whether they are just starting out, or have been playing for multiple years. Every day emphasizes a different aspect of the game to help improve their skills to become a competitive tennis player. This will be done through drilling, fun group games, and match play. The kids will see their level improve week by week. Each week they will have the opportunity to be entered into a challenge ladder where the players will be able to challenge other kids to half hour matches. At the end of the week the player on top of the ladder is that weeks Champion. Also at the end of each week, the kids will take home a report card with things they did well, things they improved on the most, and things they need to continue to work on.
